You can control your lights wirelessly using our Wireless Smart Kinetic receivers!

Where you see the following icons, it means that the product can be controlled wirelessly by using our wireless smart kinetic receivers. You can then easily control your lighting by either using our wireless wall switch, by using an app on a smart phone or tablet, or even using a voice controlled assistant such as Amazon Alexa or Google home.

Products showing this logo can be combined with our Wireless Smart Kinetic receiver for 240V lighting (including 240V fans).

The receiver can be wired to your 240V lighting to enable wireless kinetic switching (& dimming if used with a dimmable LED unit or dimmable LED lamp)

Products showing this logo can be combined with our Wireless Smart Kinetic receiver for furniture lighting.

This receiver can simply be plugged into our compatible 12Vdc drivers to enable wireless kinetic switching & dimming!

Please refer to the back page of this brochure for further details.

SY7392MB - 2m Matt Black	£37.80

Includes opal diffuser and end caps

Angled aluminium extrusion for use with LED strip

SY7389A - 1m Aluminium	£18.00
SY7409A - 2m Aluminium	£30.00
SY7409BL/B - 2m Matt Black	£48.00

Includes opal diffuser (black diffuser for matt black version), end caps and mounting clips

Mounting LED strip within an extrusion not only helps to keep runs straight and neat, it also assists with heat dissipation, therefore prolonging the life of the LED strip.

A diffuser finishes off the clean look, and provides protection from dust and water splashes.
